Beach Wrack Network

Welcome to the Beach Wrack Network

This forum is dedicated to the sustainable management (collection and reuse) of beach wrack in the Baltic Sea Region (BSR) whilst protecting beaches as living, natural landscapes. It is a stakeholder exchange platform for knowledge, ideas and collaboration.

Focus & Role of the Network

- The promotion & communication of sustainable beach wrack management policies and operations in the BSR
- To act as a support facility for policy makers, environmental/conservation groups, public authorities, marine resource management/recycling companies on topics related to beach wrack
- The promotion and positioning of already managed beach wrack within the bio-economy
- To open doors on public / private cooperation for the sustainable reuse of collected beach wrack
- To engage stakeholders in local decision making processes and to raise public/next generation awareness
